

**Gojo Foundation**  
**Sri Lanka Food Security Fund Project Update**

2022 October

# Overall Progress

- As of October 20, we have **distributed 77.3% (5746 out of 7438) of our vouchers** to expecting mothers through all 21 Sejaya branches across Sri Lanka
- We expect to finish distribution by the end of this month
- Following that, we will conduct interviews with 5 beneficiaries per branch in the first week of November

# Words from a Beneficiary

*Click to play*

Translation:

"The present economic crisis badly affected our family, mainly in fulfilling food and nutrition requirements.

Although the home garden program is being promoted, we have problems in fulfilling the food and nutrition requirements. Prices of food items have been increasing rapidly. So, some mothers were unable to purchase at least rice (main food item in Sri Lanka).

Under this kind of situation, the financial assistance given by the Gojo Japan and Sejaya Micro Credit Company will helps us fulfill our nutrition requirements, at least for one month. It is a great help for us.

So I would like to thank Gojo Japan and Sejaya Microcredit company on behalf of all the mothers”
